Laptop Requirements for New Students
Beginning with the 2021 – 2022 School Year

All students new to Oxbridge will be required to provide their own Apple laptop. Many students taking high-tech courses in computer science, math modeling, artificial intelligence, and graphic design prefer more high-tech devices, and this new program will allow those students to choose a device that works best for them. Certain minimum laptop specifications will be required in order to ensure students can operate the volume of software needed for general academic work at Oxbridge. The annual student fee covers the cost of Oxbridge-licensed software for all student laptops. A long-term laptop loaner program will be available for a fee. Current Oxbridge students will continue to use their Oxbridge-issued laptop while enrolled at Oxbridge.

Minimum Requirements*

Student laptops must meet or exceed these requirements
13" MacBook Air
1.1GHz dual-core 10th-generation Intel Core i3 processor, Turbo Boost up to 3.2GHz
16GB 3733MHz LPDDR4X memory
512GB SSD storage
Intel Iris Plus Graphics
We strongly recommend AppleCare+ for Mac in addition to the laptop

Performance Requirements*

Recommended laptop for students who wish to pursue advanced courses in the fields of digital design, 3D animation, artificial intelligence and computational math.
13" MacBook Pro
2.0GHz quad-core 10th-generation Intel Core i5 processor
Turbo Boost up to 3.8GHz
Intel Iris Plus Graphics
16GB 3733MHz LPDDR4X memory
512GB SSD storage
13-inch Retina display with True Tone
We strongly recommend AppleCare+ for Mac in addition to the laptop
